COMPASSIONATE NATURE

Aoraki at sunset by Tushar Sharma

Kia Ora everyone,

This edition has some of the beautiful photographs published in our latest

book '[Little Eyes, Big Perspectives](#)' and in the [Toitoti and Excio](#) magazines.

Students are excited about our new programs this year. The '[Borrow a camera, tell a story](#)' program provides a dSLR camera on loan, mentoring and webinars to students wanting to tell a story about nature.

Our [nature reserve workshops](#) provide an opportunity to connect with local reserves and community environmental groups.

Nature turns our hearts towards peace.

Be well.

-Tushar

Still young

by Khushi
Year 7, 2021
Remuera Intermediate School

I am like a butterfly flying in the quiet, blue breeze.
I am a unicorn leaping across the fences.
I am a bright sun, giving warmth to Earth.
I am like a flower standing in the burning sun.
I am me and all of these things.

Zenisha
Year 2, 2020
Epsom Normal Primary School

Water drops

This image was sent to us by the student during the 2021 covid lockdown. As workshops had been paused, we created a [student resource kit](#) for teachers to share with their classes.
