COMPASSIONATE NATURE

Happiness is a flower by Tushar Sharma

Kia Ora everyone,

This year is coming to a close, and it has been a very enjoyable one seeing

CONTACT

Tushar Sharma

tushar@imagen8.co.nz

imagen8.co.nz

all the beautiful work captured and created by our students! We are looking forward to publishing the Orakei nature reserve photography book in the first half of 2023.

This edition of the magazine has lovely images of the Muriwai gannets, and some of the best captures from our workshops in nature reserves and

parks. Students (and parents) have enjoyed participating in these workshops very much!

Wish you all a happy summer (if you are in the southern hemisphere) and a relaxing holiday season.

Be well.

-Tushar

GANNETS

Students enrolled in the 'Borrow a camera, Tell a story' program share this short visual story about the life and environment of these beautiful seabirds!

These images have been captured on IMAgEN8's digital SLR cameras at the Muriwai gannet colony and edited by the students in Adobe Lightroom.

NATURE RESERVES AND PARKS

Over the past few months, students have loved observing and capturing the beauty of Auckland's nature reserves and parks through the lens of a camera. Thanks to the Orakei Local Board, Manurewa Local Board and Roscommon School for supporting these opportunities!

Hina Patel

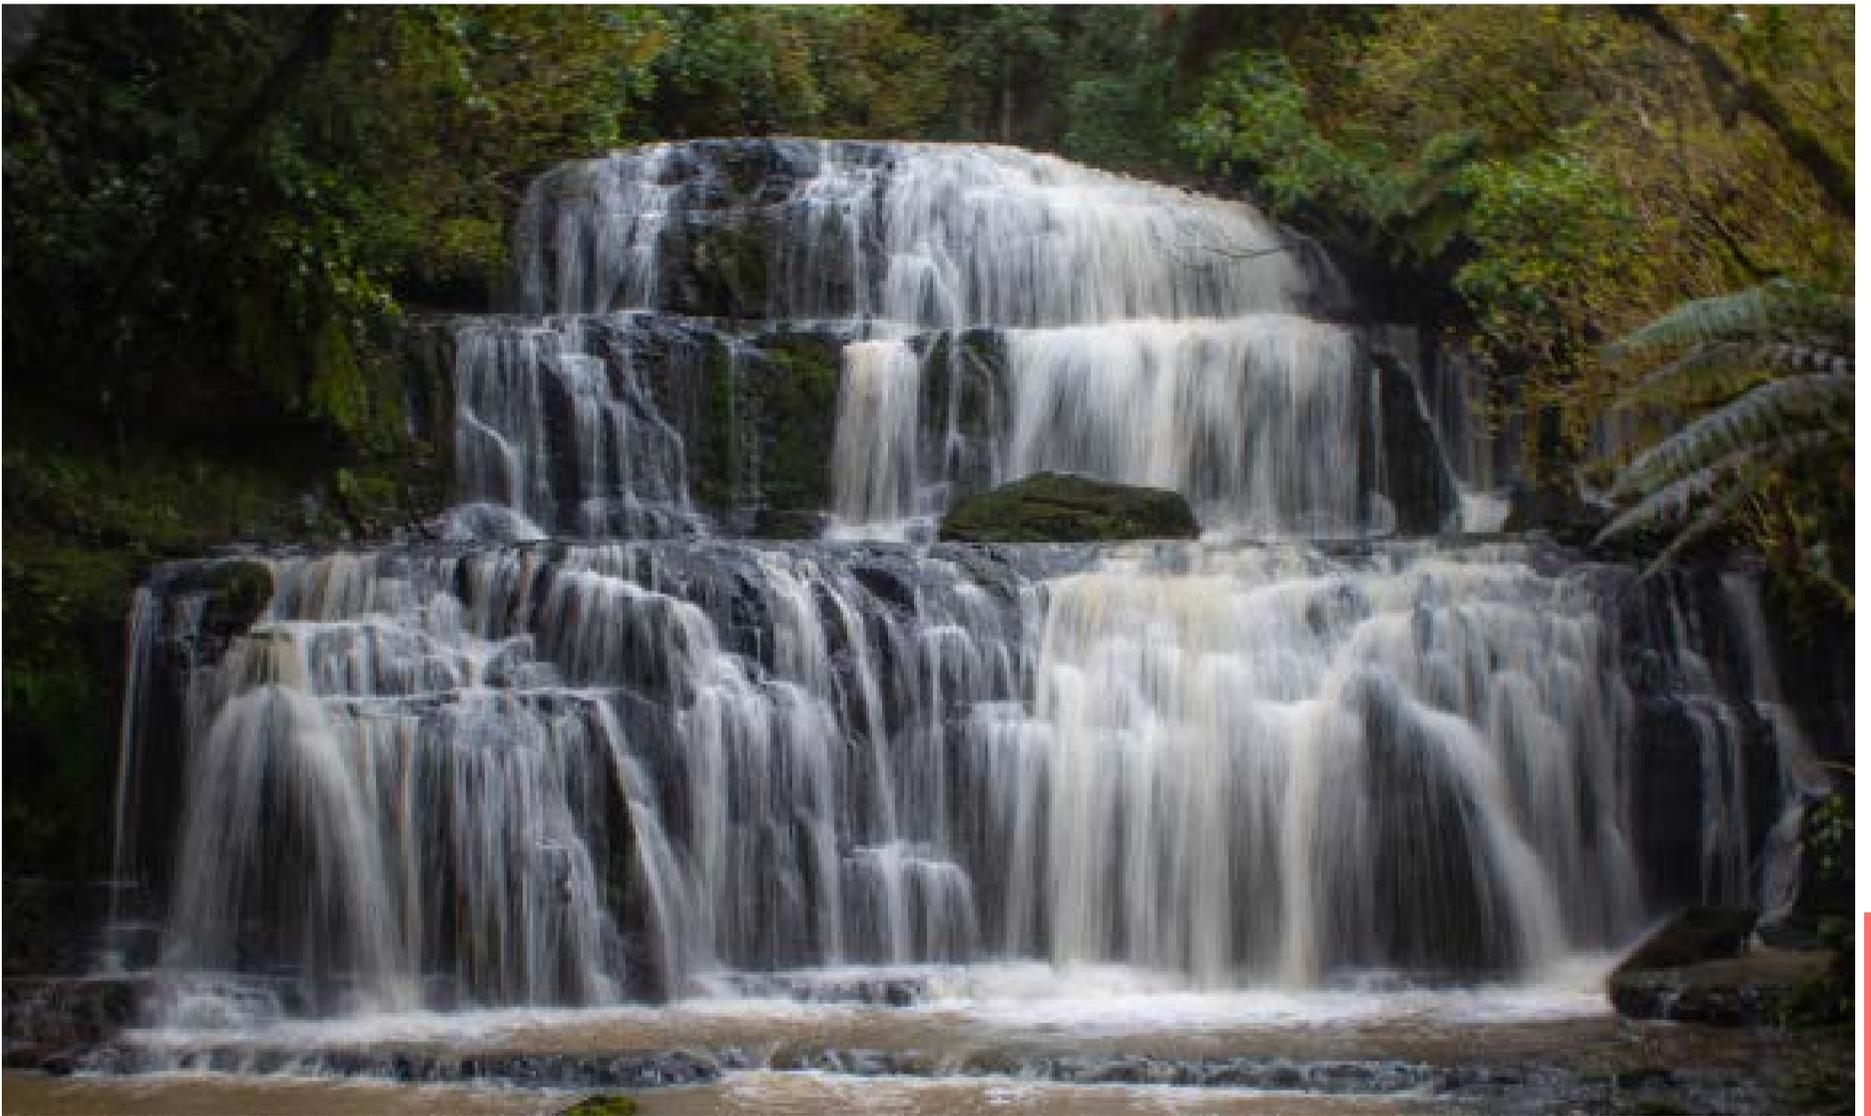

Hina has been conducting IMAgEN8's workshops since 2021. She loves working with the students and her passion for teaching photography and image processing has brought a lot of joy to the students, parents and the community. Thank you Hina!

NATURE STORIES

Students enrolled in our 'Borrow a camera' programs have captured these images on IMAgEN8's digital SLR cameras and edited them in Adobe Lightroom. It is wonderful to see their individual interests and unique creative visions!
